

Supported platforms for Trellix Data Loss Prevention Endpoint Complete - Windows

🕒 Dec 13, 2025 Article

Solution

Environment

- Trellix Data Loss Prevention (DLP) Endpoint for Windows 11.x
- Trellix DLP Management Extension 11.x

Summary

Note: We recommend that customers always update to the latest patch version. We offer technical support on older patch versions only on a best-effort basis. New bugs or vulnerabilities identified in any General Availability (GA) versions will only be fixed in the upcoming releases.

As third-party manufacturers release new operating systems, platforms, and service packs, the original product guides might not reflect the current support policy for those platforms.

Most of the following information is available in the Product Installation guides and readme.txt files. But, some of the information is available only in Product Management Statements published in the Knowledge Base.

Notes:

- Trellix DLP Endpoint is renamed as Trellix DLP Endpoint Complete from March 26, 2024 onward.
- This article contains supported platform details of DLP Endpoint for Windows only. For supported platform details of DLP Endpoint for macOS, see [Supported platforms for Trellix Data Loss Prevention Endpoint Complete - macOS \(/s/article/KB96755\)](#).

- ¹ For DLP Endpoint 11.9 and later, you must use the DLP 11.9 and later extension. DLP Endpoint 11.9 and later client software is not compatible with earlier versions of DLP extensions.
- ² To upgrade DLP Endpoint version from 11.9.0 to 11.10.0, you must first upgrade from 11.9.0 to 11.9.100 and then to 11.10.0.
- ³ For upgrading to DLP Endpoint 11.10.100, if you are running Windows 7 Service Pack 1, Windows 2012 R2, or Windows 8.1:
 - The upgrade is supported from DLP Endpoint 11.6.600 and earlier.
 - Upgrade **is not supported** from DLP Endpoint 11.6.700, 11.9.0, 11.9.100, or 11.10.0.

Issue resolutions in updates and major releases are cumulative; Technical Support recommends that you install the latest version. - ¹ Thin client or embedded version Standard, Enterprise, Business, and Professional editions are not supported.
- ² Windows Core edition is not supported because of limitations implemented in the operating system.
- ³ Service Pack 1 or later.
- ⁴ A custom support agreement and support license are needed for Windows 7 support with DLP Endpoint. Contact the Enterprise sales team for more information.
- ⁵ Case Sensitivity Unsupported.
- ⁶ Supported on the following DLP Endpoint versions:
 - 11.10.100 and later in DLP Endpoint 11.10.x
 - 11.11.3 and later in DLP Endpoint 11.11.x
 - 11.12.0 and later in DLP Endpoint 11.12.x
 - 11.14.0 and later in DLP Endpoint 11.14.x

Bugs, vulnerability fixes, or enhancements are not supported.

- ⁷ Support is provided only for DLP Endpoint 11.10.102 and later. For details about the minimum supported DLP versions, see the article [Windows 11 compatibility with our products \(/s/article/KB94901\)](https://support.microsoft.com/en-us/topic/windows-11-compatibility-with-our-products-1110102).

Versions earlier than Windows 10 Version 1803 (April 2018

- ⁸ Update) are supported only with DLP Endpoint for Windows 11.12.0 or later, based on the notes below about DLP supportability.

Notes:

- DLP Endpoint supports Microsoft operating systems and its Service Packs only while Microsoft officially supports them. No support is provided for operating systems beyond its Extended End Date and when it reaches Extended Security Update (ESU). Microsoft ended mainstream support for Windows Server 2008/2008 R2 on **January 13, 2015**, and will end extended support on **January 14, 2020**. For details, go to the [Windows Server Documentation page \(https://www.microsoft.com/en-us/cloud-platform/windows-server-2008\)](https://www.microsoft.com/en-us/cloud-platform/windows-server-2008). For best results and optimal security, upgrade to a newer supported operating system.

For more information, see the article [Support for Windows 7/Server 2008/2008 R2 after January 2020 \(/s/article/KB91432\)](https://support.microsoft.com/en-us/topic/support-for-windows-7-server-2008-2008-r2-after-january-2020-1110102). Microsoft ended extended support for Windows Server 2003 SP2 on July 14, 2015. As of the end of 2015, the only product we support with Windows Server 2003 SP2 is Application and Change Control.

Microsoft ended extended support for Windows XP SP3 on April 8, 2014. For best results and optimal security, upgrade to a supported operating system. See the following KB article for more information: [Product support for Windows XP SP3 after the end of the Microsoft Extended Support date in April 2014 \(/s/article/KB78434\)](#).

- When foundation software such as Trellix Agent (TA) and ePolicy Orchestrator (ePO) end support for the operating system or Service Pack, DLP Endpoint also ends support for it.
- File System Discovery Rules and Network Communication Protection Rules are not supported on servers.
- Windows 10 Professional and Enterprise editions are supported. - Windows 10 Current Branch and Current Branch for Business are supported.
- ARM64 architecture is not supported currently.
- For LTSC support details, see the article [FAQs for Microsoft Long-Term Servicing Channel supported versions with DLP Endpoint \(/s/article/KB95774\)](#).
- For details about the minimum supported DLP versions for CET/HSP, see the following articles: [Windows 11 compatibility with our products \(/s/article/KB94901\)](#) and [Windows 10 compatibility with our products \(/s/article/KB85784\)](#).
- DLP has no support for UWP apps (formerly, Windows Store apps, Metro-style apps, and Modern apps).

11.12.x	Yes	-	-
11.11.x	Yes	-	-
11.10.x	Yes	Yes	Yes

Note: We test **DLP Endpoint** software on VMware virtualization platforms. Most of the features work on all VMware virtualization platforms when the guest operating system is of a supported platform, and has been provisioned with recommended system requirements as defined in the Installation guide. But, some hardware-interaction based features might not work as expected because of the nature of hardware implementation on virtual platforms. If an issue arises, we provide support to these issues on a case-by-case basis.

Microsoft Windows supported browsers

Microsoft Windows — Supported browsers for DLP Endpoint and ePolicy Manager Console

DLP Endpoint 11.x Policy Manager is native to ePO and works with any ePO-supported operating system and browser combination. To view ePO supported browsers, see the article [Supported platforms for Trellix ePolicy Orchestrator \(/s/article/KB51569\)](/s/article/KB51569).

Note: The plug-in extension on Chrome does not need an update as it works like a proxy. The DLP Agent delivers this feature and not the plug-in.

Microsoft Windows — Supported browsers for DLP Endpoint

To view DLP Endpoint supported browsers, see the article [Supported third-party applications with Trellix DLP Endpoint for Windows and macOS \(/s/article/KB91647\)](/s/article/KB91647).

Release Notification Article — DLP Endpoint Extension for Chromium browsers

To view the release notification details, see the article [DLP Endpoint Extension for Chromium Browsers - Release Notification \(/s/article/KB96392\)](/s/article/KB96392).

Supported ePO and Trellix Agent (TA) / McAfee Agent (MA) versions

ePO supported versions

DLP Endpoint Extension	ePO 5.10
DLP Endpoint Extension 11.10.4 and later	CU14 and later

Note: Support for the **DLP Endpoint** extension on a specific version of ePO ends with the EOL date of the ePO version. For ePO versions that have reached EOL, legacy listings are shown to indicate the version of DLP formerly supported. This information can provide an upgrade path for customers who might be running the legacy version of DLP Endpoint and ePO.

TA / MA supported versions

Note: MA was rebranded to TA in version 5.7.7.
